

Butterfly tub 1" ST (UWM)

Butterfly tub 1" ST (UWM)

... ideal for exercise routine and manual under water massage

Ergonomical shaped tub for exercise routines in the water. The special shape of the butterfly tub and the support of the water enables almost unlimited sweeping arm- and leg exercises, especially in the early stage of rehabilitation and allows the therapist to assist the patient optimally.

The tub body is made out of heat- and acid-resistant, double-paneling GRP-material or stainless steel. All around paneling with formed instrument panel. Tub filling and shower fittings 1". Isolated build-in valves. Inside space with handles. 5 adjustable aluminium feet for stable stand. Clearance height for free access with patient lifts.

With UWM-Option: Build-in high capacity pump 210 l/min with pressure control valve 0-5 bar. Massage hose 2 m incl. jet attachment.

- Almost unlimited exercise space
- Double-paneling GRP-material, also available is a stainless steel version
- Clearance height for free access with patient lifts
- High stability, with 5 adjustable aluminium feet
- Different air-jet-systems
